

Comments/Questions for Midcoast Habitat

Submitted by Stephanie Smith

- How can the Habitat and Friends of the Tannery proposals MAXIMIZE housing?

Submitted by James Bennett

- Would these houses be owned by the occupants?
-

1. Midcoast Habitat's current proposal is strictly for 3-4 house lots. Developing further into the remediation/clean up space would not make sense for our program/project at this time based on affordability. From my understanding, The Friends of the Tannery proposal is not geared toward further development but rather green/play space.

2. Midcoast Habitat sells the house to qualified partner families. Yes, they would be owner occupied.
