

## Current Status of Camden Beaches

9/1/10

<b>Barrett's Cove:</b>	Open for swimming
<b>Shirrtail Point:</b>	Open for swimming
<b>Hosmer Pond/Snow Bowl:</b>	Open for swimming
<b>Laite Beach:</b>	Open for swimming
<b>Yacht Club:</b>	Advisory

An advisory is posted when weekly testing for bacteria levels exceeds healthy limits for swimming. A second test is done the following day and if water quality returns to a normal range, the advisory is lifted.

*Symptoms of water-related illness can include stomachache, diarrhea, and infections of ear, eye and skin. If you have these symptoms, notify your physician or seek treatment.*

For more information about water quality at Camden's beaches, please call:

Jeffrey Nims, Health Officer
