Mission Statement

To build collaboration utilizing community assets to strengthen and energize Camden's downtown.

Goals

- To serve as a resource for our teams, other organizations and events
- To identify current and potential community assets
- To identify funding sources to implement our projects.
- To advocate for downtown Camden's vitality through building community support.

Proposed Vision

The Town of Camden is committed to a vibrant future by providing its residents, businesses and visitors with a high quality life experience that extends from our core values of marine heritage and natural beauty to our vision of vitality and economic growth. We will continue to promote the best in educational resources, recreational opportunities and economic support to help our community thrive. We will protect and honor our history while embracing the innovation and diversity needed for our future. We will diligently nurture Camden's position as a center for filmmaking, innovation, education and technology as well as focusing on the continuation of Camden as a haven for scholars, artists and writers.
